#### **INDEPENDENT AUDITORS' REPORT**

Members of the Board South Kalamazoo County Fire Authority

We have audited the accompanying financial statements of the governmental activities and the major fund of the South Kalamazoo County Fire Authority as of and for the year ended March 31, 2006, which collectively comprise the Authority's basic financial statements as listed in the contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of South Kalamazoo County Fire Authority as of March 31, 2006, and the respective changes in financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

The budgetary comparison information, on page 9, is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The South Kalamazoo County Fire Authority, Michigan has not presented the management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be a part of, the financial statements.

Sigfied Coulse P.C.

### **BASIC FINANCIAL STATEMENTS**

Change in net assets					\$	(33,525)

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the South Kalamazoo County Fire Authority (the Authority) conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governments. The following is a summary of the more significant policies:

#### a) Reporting entity:

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, these financial statements present the Authority. The criteria established by the GASB for determining the reporting entity include oversight responsibility, fiscal dependency, and whether the financial statements would be misleading if data were not included. The Authority has determined that no other outside agency meets the above criteria and, therefore, no other agency has been included as a blended or discretely-presented component unit in the Authority's financial statements.

The Authority was established June 26, 1999, to jointly provide fire protection services within the member municipalities in Southern Kalamazoo County, Michigan. The Authority is comprised of the Villages of Schoolcraft and Vicksburg, and the Townships of Brady, Prairie Ronde, Schoolcraft, and Wakeshma. Costs of operations and capital expenditures are supported by contributions from the participating municipalities.

#### b) Basis of accounting:

The statement of net assets and the statement of activities are reported using the economic resources, measurement focus, and the accrual basis of accounting. Revenue is recorded when earned and expenses when a liability is incurred, regardless of timing of related cash flows. Grants and similar items are recognized as revenue as soon as all the eligibility requirements imposed by provider have been met.

Governmental fund financial statements are reported using the current financial resources, measurement focus, and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Authority generally considers revenues to be available if they are expected to be collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

#### c) Assets and liabilities:

- i) Bank deposits and investments Cash is considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investments are stated at fair value.
- *ii)* Capital assets Capital assets, which include land, buildings, equipment, and vehicles, are defined by the Authority as assets with an initial cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

## South Kalamazoo County Fire Authority NOTES TO FINANCIAL STATEMENTS (Continued)

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

#### c) Assets and liabilities:

ii) Capital assets (continued) - Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Equipment 10 - 20 years Vehicles 5 - 15 years

#### NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY:

Budgetary information - An annual budget is adopted on a basis consistent with generally accepted accounting principles for the General Fund. The budget document presents information by function and line-item. The legal level of budgetary control adopted by the governing body is the line-item level. All annual appropriations lapse at the end of the fiscal year.

Excess of expenditures over appropriations - The following schedule sets forth the significant budget variance:

<u>Fund</u>	Function/Activity	Line-item	Budget	_Actual_	V	ariance_
General	Public safety - fire protection	Operating supplies	\$ 27,200	\$ 40,212	\$	13,012
		Repairs and maintenance	59,220	64,740		5,520
		Insurance	38,500	40,749		2,249
		Utilities	15,000	17,287		2,287
		Miscellaneous	-	3,325		3,325

#### NOTE 3 - CASH:

State statutes and the Authority's investment policy authorize the Authority to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations that have an office in Michigan. The Authority's deposits are in accordance with statutory authority.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the Authority will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by federal depository insurance and are uncollateralized. At March 31, 2006, the Authority's bank balances of \$52,767 were fully insured, and were, therefore, not exposed to custodial risk.

#### NOTE 4 - OPERATING LEASES:

The Authority leases three stations from the Village of Schoolcraft, Wakeshma Township, and the Village of Vicksburg under agreements that have been classified as operating leases. The terms of the lease agreements between the Authority and the participating local units of government are in effect through August 31, 2007. Lease expense for the period ending March 31, 2006, was \$15,000.

#### NOTE 5 - CAPITAL ASSETS:

Capital asset activity of the Authority for the current year was as follows:

	Beginning balance	Increases	Decreases	Ending balance
Governmental activities:				
Capital assets not being depreciated - land	\$ 5,000	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,000</u>
Capital assets being depreciated:				
Equipment	216,387	23,000	-	239,387
Vehicles	<u>754,400</u>	<u> 156,000</u>		910,400
Subtotal	970,787	<u>179,000</u>		<u>1,149,787</u>
Less accumulated depreciation for:				
Equipment	103,297	26,117	-	129,414
Vehicles	<u>456,340</u>	47,290		<u>503,630</u>
Subtotal	_559,637	73,407		633,044
Total capital assets being depreciated, net	411,150	105,593	<del></del>	516,743
Governmental activities capital assets, net	\$ 416,150	\$ 105,593	<u>\$ -</u>	\$ 521,743

#### NOTE 6 - PAYABLES:

Payables as of year end for the Authority are as follows:

<u>Fund</u>	A	ccounts	Payroll	Total
General	\$	11.311	\$ 11.278	\$ 22,589

#### NOTE 7 - DEFERRED REVENUE:

Governmental funds report deferred revenues in connection with revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year deferred revenues consisted of unearned insurance reimbursements.

#### NOTE 8 - RISK MANAGEMENT:

The Authority is exposed to various risks of loss to general liability, property and casualty, and workers' compensation, with such risks being managed through the purchase of commercial insurance.

#### REQUIRED SUPPLEMENTARY INFORMATION
